

**Rabbi Cohn to Be Speaker in Congregational Series**

Everybody in the Lemon Grove area is invited Sunday evening, November 20 at 7:30 p.m. to the First Congregational Church of Lemon Grove to hear an outstanding speaker and distinguished lecturer, Rabbi Morton J. Cohn of Temple Beth Israel, San Diego, lead discussion on "The Dynamics of Fellowship," a consideration of practical means for lessening international and inter-racial tensions.

This is the third in a series of "University of Life" lectures presented to the community on Sunday evenings by the social action committee of the First Congregational Church. Moderator for the discussion will be Clarence Allen, principal of the Vista La Mesa school and chairman of the social action committee. The meeting is open to the public without charge.

**V. L. M. PTA PLAYS TO S.R.O.**

"Standing Room Only" was the sign in evidence when the Vista La Mesa Parent Teacher Association held their November meeting, Thursday, November 10 at 7:45 p.m. in the school cafeteria.

A short business meeting was conducted by Mrs. H. C. Alexander, president. The inspirational thought for the evening was presented in the form of a solo.

"The Lord's Prayer" sung by Phil Peterson, a member of the unit. Colors were presented by Brownie Troop No. 253. Mrs. Ireland and Mrs. Bouterous are leaders.

"A look into the classroom," a regular monthly feature of the meeting, was presented by "Cy" Metzner, fifth grade teacher at Vista La Mesa School. He used as his subject "Arithmetic With Meaning." A film was used by which to better explain the methods and purposes of teaching arithmetic.

Since the meeting fell during "American Education Week," the third step in the yearly theme of the unit, "Mix With American Education Week" was used.

Following the business meeting the parents were invited to the classrooms of their children to view the work that had been accomplished this year and to hear from the teacher what he or she expected to accomplish during the remainder of the year. They followed their children's schedule through a day at school.

The bell sounded in 45 minutes to call the parents back to the cafeteria. For learning their lessons well they were rewarded with refreshments prepared and served by the room mothers and parents of Mrs. Whaley's and Miss Wise's third and fourth grade rooms.

The committee feels that the meeting was most successful and offered the parents an opportunity to better understand the problems of the school and their children.

7:30 p.m. in Friendship Hall. All interested members of the church are invited to this open meeting, at which time it is hoped that the building council will vote a recommendation of "go ahead" to the architects, through the board of trustees.

Favorable action by the building council will swing most of the committees of the council into action, in order to plan, in conference with the architects, the many details which must be incorporated in the finished structure. From 60 to 90 days are to be given the architects for completion of final plans. It is the hope of the executive board of the building council that the new sanctuary will be ready for use by the church membership by Easter Sunday, 1957.

**WHAT'S  
DOING**

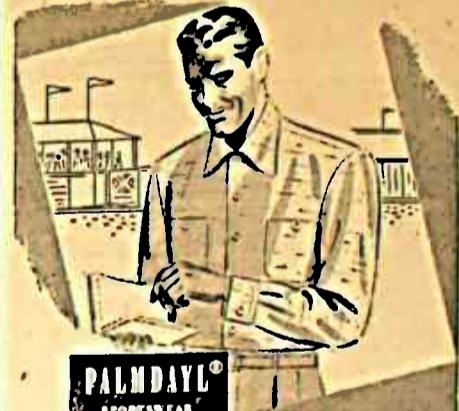

Once a year, in just about every American City, the time comes for "The Big Event." And so it is this week in El Cajon for it is MOTHER GOOSE PARADE time. This will mark the ninth annual Mother Goose Parade for El Cajon, the ninth year in a continually growing pageant of color, gaiety and sound dedicated to the children of the world — an hour-filled, miles-long panorama of fairy tales come to life. If you have seen MOTHER GOOSE, you will (naturally) go to see it again; if you have yet to see your first one — I can't urge you too much to avail yourself of the opportunity to "live" this outstanding event.

And while all of Mother Goose carries with it a feeling of gaiety and happiness may I introduce a word of caution? This parade is attended by (literally) hundreds of thousands of people with an attendant thousands upon thousands of automobiles. Going to El Cajon and leaving it after the parade calls for an extra amount of care in driving, an extra alertness on the part of the person behind the wheel. Impatience sometimes causes some drivers to forget the courtesy which usually governs their actions in the driver's seat. If we all drive BOTH for ourselves AND the other driver the Mother Goose Parade will live long as a very pleasant memory for us all. So, DO be careful — DON'T allow impatience to add a tragic note to the DAY. May I wish you a HAPPY MOTHER GOOSE DAY — All day.

### Floodlights and Sound Trucks Will Help to Open Two New Stores

The grand opening of two new stores on Broadway on November 17, 18 and 19 will be announced and lighted suitably by floodlights and sound trucks, free balloons for the kids and door prizes.

The stores celebrating their entry into the business life of Lemon Grove are Brouillard Hardware and The House of Toys.

Brouillard Hardware, Lucian and Ann Brouillard, props, at 7867 Broadway, has a complete stock of hardware, with everything in the hardware line on the shelves. "If you want it, we got it," is the Brouillards' motto. The store and the goods displayed are a joy to behold. Cost of stock on the shelves totaled \$35,000, with more goods arriving daily. Lucian and Ann Brouillard have been working night and day for the past six weeks in preparation for this event.

A new, modern hardware store with carpenter tools, general tools, hardware, plumbing and electrical supplies.

Brouillard's has been open for business for a couple of weeks, and Lucian told this reporter Thursday that business was satisfactory, so much so that he has engaged a contractor to build a warehouse at the rear of his store.

"You gotta have goods if you want to sell 'em," he says. In the hardware business for 37 years, he knows his stuff.

### House of Toys Is Ready for Christmas Shoppers

House of Toys at 7823 Broadway, in a brand new store, brand new fixtures, and brand new goods that will delight the youngsters, will have a grand opening Friday with free balloons for the kids and a wonderful display of toys of every description, from dolls to hobby horses. We can't begin to describe the variety of toys on display, so you will have to go to the opening and see for yourselves, and be sure and take your youngsters along. You can make a special visit to select presents for Santa Claus to deliver.

The House of Toys and its establishment was conceived by Sam and Dorothy Kroschel, who have lived in Monterey Heights for six years. They have two children.

Management of the House of Toys will be delegated to Mrs. Pat Whitworth, who has 17 years business experience and promises satisfaction to customers.

Floodlights and a sound truck will add to the gaiety of the grand opening Friday.

Valuable prizes by way of a drawing and some free gifts for the kiddies will be part of the opening program. — D. H.

### GROVE MAN, 90, DIES

A Lemon Grove man, John Fletcher Daily, 90 years of age, was the campaign manager for William Jennings Bryan in 1900, died last week in San Diego.

Until recently Daily had lived at 6923 Central Avenue and was a member of the Lemon Grove Congregational Church.

Services were held Thursday at Conrad's Lemon Grove Mortuary.

Daily is survived by his wife, Carrie. He is past president of the Sourdough Club, a mining organization.

**Highlanders Triumph, Regain Musket'**

It'll be Chula Vista vs. Helix this Saturday night for the Metro League championship, following last Thursday night's 2-0 lacing on the part of Helix over arch rival Grossmont.

Besides winning the hard-fought game Helix also regained the coveted "musket" trophy, and now have a 2-3 record against the fighting Foothillers, who have only won one game all season. They tied once with El Cajon.

Sunday afternoon, Coach Bill Schutte was hanged in effigy on the Aztec campus.

In Thursday's tilt the score

was 0-0 after the first quarter. Helix couldn't even muster a scoring threat while the Foothillers were out-classing them on both offense and defense. Then the Highlanders got mad!

Following a spectacular goal line stand in which they held their foes for four straight downs without an inch gained the Highlanders took over and from then on it was Helix all the way. All they needed was a little confidence and after stopping Grossmont on the six-yard line they got their needed spirit and started showing their stuff.

In the second quarter Dan Spinazzola, sub-fullback in place of injured "Rudy" Rudzinski, shot six yards over tackle to score. Gary Dunn, right half, made the first of his three conversions on a plunge. Minutes later Dunn galloped 30 yards to tally TD No. 2. He also plunged for the extra point. Dave Olson, the Metro League leading scorer with 30, bolted 36 yards in the game's last touchdown in the final period. Dunn converted.

Grossmont closed out its Metro campaign with three losses and a tie.

The Helix defense was hot and cold. In midfield Grossmont made fair gains, but in deep Helix territory the Highlanders got tough and held them.

Final score: Helix 21, Grossmont 0. — Bob Turnbull

**NEW MEXICO TROUNCES STATE AZTECS, 28-6**

It was a speedy New Mexico A & M football team that broke the line constantly to rack up a 28-6 victory against the San Diego State College Aztecs in a game played in Las Cruces, New Mexico, last Saturday afternoon.

A toss-up was the pre-game prediction, but a freshman-laden squad from the sun state trounced our off-again-on-again warriors from Aztecville.

Don Magee, quarterback, hurled 19 yards to end Al Canizales for San Diego's touchdown late in the final period.

Sunday afternoon, Coach Bill Schutte was hanged in effigy on the Aztec campus.

### TERR-O-VITE

New 3-Way Treatment

An outstanding contribution to scientific gardening! Attacks soil and plant problems with the most advanced technological instruments known. Works three ways to make your garden more beautiful than ever.

1. A powerful soil preservative

Terr-O-Vite contains a wonder chemical that makes water wetter! It penetrates hard or heavily matted soils, so life-giving nutrients reach plant roots, aren't lost in surface run-off.

2. Clebrates trace mineral deficiencies that cause yellowing. Terr-O-Vite actually changes the chemistry of the soil! Vital trace minerals "locked up" in the soil are released for plant use. Additional Iron, Zinc and Manganese, already in the magic clebrated form, is provided. Then, to speed plant recovery, the complete, high-nitrogen fertilizer in Terr-O-Vite acts as a quick "green-up."

3. Combats alkalinity in soil and water

California's soil and water, apt to be alkaline, can take a terrific toll. Terr-O-Vite's acidifying action helps save your plants from injury.

Here is three-way help for dangerous conditions that spoil the beauty of your garden. Easy to apply, use a sprinkling can or any liquid fertilizer applicator. Get Terr-O-Vite at your nursery or garden dealer's.

For more helpful gardening suggestions, get a free copy of "Doc" Cha-Kem-Co's Horticultural Guide at your nursery or by mail (enclose 25¢ stamp for postage).

## MEET 'MISS STEAMED CLAM'

Beverly Bodin, 1070 Broadway, who is to represent Lemon Grove in the Toyland Parade next month in North Park, has acquired an additional title.

She was named "Miss Lemon Grove Steam Clams of 1955" at Club Venetia, 1644 Broadway, last week. Club Venetia is Lemon Grove's newest restaurant and cocktail lounge and sea food is a daily feature at both lunch and dinner.

Steamed clams, according to owners Leonard Mercurio and Larry Tassina, will be a regular winter feature. Fresh crabs will be flown in regularly from San Francisco, the owners say.

Toyland Parade will be held Sunday, December 4.

## WHY OUR TAXES KEEP GOING UP

"How much is your tax bill?" You have probably had the answer in a note from County Tax Collector Wilbur Easton before you read this, as the tax bills are mailed out October 25, so you can get over the shock and write a check for the first half of the bill.

A partial explanation for the continued rise in our yearly tax bill is given in an article in "Tax Outlook," which outlined a whole series of pressures that new families bring to a community.

"What do 100 new families mean to a community?"

1. About 450 new people.

2. Fifty new kids in grammar school, 25 in junior high and 25 in senior high.

3. 22 new grade school, and 18 high school rooms.

4. City will have to buy about four acres of land for grammar schools, high schools, parks, playgrounds and playfields.

5. 100 new families add about \$30,000 a year to the school operating budget.

6. 100 new families mean 84 new employees in the police force and two-thirds of a new firemen. Police budget goes up \$4,518 a year, and fire department, \$2,830.

7. After adding jobs like fire, police, garbage, street cleaning, etc., the annual payroll of the city is increased by \$12,000 to \$15,000.

8. Water department will have to pump an additional 10,000 gallons a day.

9. One new hospital bed will have to be added at a cost of \$10,000.

10. Finally, there will have to be a fraction of a visiting nurse and last, but not least, a fraction of a jail cell.

## Girl Scout Bake Sale To Be Held Saturday

Back from the Girl Scout convention in San Francisco is Mrs. Carol Davy, chairman of the Monterey Heights Neighborhood Club—in time to push the Girl Scout Bake Sale this Saturday morning the 19th. There will be two sale points. One is in the Carr Hardware Store in Lemon Grove. The other is on the parking lot of the skyline Wesleyan Methodist Church in Monterey Heights, near the entrance to Loma Vista.

Mrs. Davy had gotten the sale plans rolling before she left. Now the returns from this biennial conclave, which she shared with 8,000 other Scouts, including 28 adults, six girl delegates and 40 other Scout-minded adults from this local council. Mrs. Davy is full of enthusiasm and countless ideas for furthering the growth and development of scouting in our own neighborhood.

It is of special interest to all local scouts and Scouts that the speaker at the convention in San Francisco, Lady Baden-Powell, wife of the founder of Scouting,

## Student Teachers Approved for Work In District

Student or "cadet" teachers from San Diego State College were approved for the Lemon Grove School District Monday night at the November meeting of the school board. These senior students, education majors, do one semester of student teaching under the guidance of a "master" teacher recommended by the district and approved by the college.

This semester there are eight student teachers in the schools here, three at the junior high, three at Vista La Mesa, and two at Golden Avenue. Three of the eight are local students. Charlotte D. Minnis, Alice Milne, and Marcella Jepson of Lemon Grove.

S. K. Solleder, assistant superintendent, reported on results of an accident survey made by a newly appointed safety committee in the schools. The board approved sending home, with the pupils, an informative letter and explanatory pamphlets regarding the pupil accident insurance being made available. The school district carries no coverage of this type for pupils.

In the audit report review, the board heard the business office of the schools here praised for the exact procedures in compliance with state regulations which have been followed. Other business included the reminder that bids for the San Miguel additions will be opened November 22, 8 p.m. at the Education Center.

The board heard a report and had a discussion on subdivision activity in Lemon Grove and its effect on the district. Several of these along the boundaries are requesting annexation to the city. Several school districts around San Diego face similar problems.

Civil defense evacuation plans were discussed. Since it was felt that there was a need for further study and broader suggestions, the problem was placed on the November 28 meeting at which time parents and other school patrons will be asked to contribute to the discussion.

The board, in deliberating over the disbursement of monies in the building fund, decided to investigate four avenues in which such monies could be put to the best use. If sufficient funds remain, an additional classroom might be constructed. They will seek an estimate on the cost of developing the lower playground and parking lot at the Vista La Mesa School. There is a possibility that warehousing and storage facilities might be developed on the land adjoining the education center. A fourth channel to explore is the possible purchase of an elementary site from land owned by Mrs. Emily Morris. All four possibilities will require investigation and further discussion before action is taken.

One's intelligence can be measured by his ability to accept constructive criticism.

Final action of the board Monday night was the formal adoption of Chapter 55, Business Services, under the board policies and

procedures. Next meeting is scheduled for Monday evening, November 28, at the Junior High School auditorium on School Lane.

## Troop 251 Visits Sunshine School

Last week Monterey Heights Brownie Troop 251, with leaders Mrs. Robt. Pearce and Mrs. Emil Gurnas, visited the Sunshine School in San Diego. Mrs. Eva Ritchie, principal, graciously conducted the troop through the school, introducing them to the school personnel, showing them the physical therapy rooms, and explaining the functions of items such as the stall-like tables in which a child can stand in a strap harness, enabling him to work in a standing position.

The Brownies presented Mrs. Ritchie with 12 picture scrapbooks. These were made by the Brownies especially for the children at the school. They covered interesting subjects such as birds and animals, airplanes, insects, family life, boats, tractors, and beautiful nature scenes. Mrs. Ritchie accepted the books, thanking the girls for their interest and the splendid work done in these books. She assured the troop that the books would provide hours of enjoyment for the children at Sunshine Home.

## DOUGHBOYS' COOKED AT 'COME-AS-YOU-ARE' PARTY

Girl Scout Troop 603, with leader Mrs. Craig, met for a "come-as-you-are" party Veterans' Day at the home of troop member Susan Stevens. Besides enjoying interesting games, unique food was prepared and consumed by the girls such as Pot of Gold (tomato soup with cheese biscuits floating on it) and Doughboys (biscuit dough baked on a stick over a barbecue pit, removed from the stick when browned well, and the cavity left by the stick filled with jelly). In attendance were the following scouts and adults:

Mrs. Craig, Mrs. Mitchell, Margaret Brown, troop reporter, Janice Mitchell who planned the party, Patsy Boggs, Sharon Davy, Gloria Pearles, Barbara Mos, Susan Stevens, Kay Hildebrand, Sue Hoffman, Sheryl James, Paity Smith, Sue Bauman, Doreen Lalupipe, Sharon Summerville, Nancy Jones, Jeri Clark, and Lisa Norc.

This is the troop which made the paper parades for the M. H. Halloween carnival. They are now making sock monkeys to present to the children at the Sunshine Home, when they make their trip there to represent the troop sponsoring unit, the Lemon Grove VFW.

## KNIGHTS SLIPPING TO CELLAR; LOSE 26-12

San Diego Junior College's Knights continued their drive to the bottom of the pile by losing to a heavily-penalized East Los Angeles Junior College team, 26-12. The game was played away last Friday night.

This game was the Knights' fourth league loss as compared to only two league wins. The Knights started off the season with three straight non-league victories then hit a slump.

Tom Tomako, qb, hurled a 14-yard pass to end Dallas Evans and Jim Frankson, t, plunged three yards for the Knights' scoring.

Nine 15-yard penalties were assessed against the Huskies, mostly for dirty play that resulted in several San Diego injuries. Dick Gardner (ex-Helix) suffered a broken jaw, Charlie Kahan (whose folks own the Popular

Dr. Nicholl and other officers will be installed at a general Christmas party to be held at the Kona Kai club next month. It was announced.

The Lemon Grove optometrist will serve with Dr. I. Edward Markowitz of Linda Vista and Claremont, president; Dr. Paul Kingdom of San Diego, second vice president; Dr. John Harris of San Diego, secretary, and Dr. Floyd Green of National City, treasurer for the coming year.

Dr. Nicholl said that the society had gone over the top with a \$1248 subscription in the current United Service drive.

**Juniors' Style Show  
Nets \$600 for  
Swimming Pool**

By SIS MAJOR

As a result of the Lemon Grove Juniors' fashion show, Lemon Grove is approximately \$600 closer to the dream of a swimming pool. The Juniors wish to take this opportunity to thank each and every one for their wonderful cooperation in making their third annual event a success.

Mrs. Eugene Johnson, chairman, stated the net proceeds were not as great as she had hoped, but the good will created among the merchants in joining together for a cooperative show was of value in itself.

The businessmen who modeled for the evening show did a wonderful job. If you did not attend you missed seeing your local editor, Mr. Goodwin, model a "lush" pair of Bermuda shorts.

At the next regular meeting of the Juniors, Tuesday, November 22 at the clubhouse, a fashion feature, "Speaking with Poise" will be presented by Personality from San Diego. John Michael, local hair stylist, will present the latest in hair coloring, and "What to do with Long Hair." All Juniors are urged to attend. This would be a good time to bring that prospective member. All Senior members are welcome.

Among the many county Juniors attending the Southern District board meeting in Vista on November 8 were Mrs. Leroy Seagull, county Junior president, and Mrs. James Martin, Southern District music chairman and county auditor, both active members of the Lemon Grove Juniors.

**Scavenger Hunt at  
Borrego Had By  
Troops 552, 1184,  
863 and 1139**

Monterey Heights Girl Scout Troops 552, 1184, 863 and 1139 spent a weekend recently at the Borrego State Park. Mr. and Mrs. Richard Hicks with Scout Patti Smith, pulled the Davy trailer and got to the site late that Friday night. In this way the girls were assured of a good campsite. At 8:30 Saturday morning the rest of the scouts left Monterey Heights, by Goodall bus and private cars. A total of 57 people made the trip.

Saturday morning was spent in setting up camp. Mrs. Hicks gave each troop a scavenger hunt list. These included a couple of "stiff" articles, aimed at making the requirements "high on to impossible" e.g., a chauffeur's license, ranger's badge, and a black night gown. These were found after diligent search. A park ranger submitted his badge. Mr. Goodall gave up his license, and the gown? Found in a Scout leader's duffel bag!

At noon, leader Moe took about 30 girls up the mountain on a vertical hike. Adults watched the ascent, calling encouragement from the comfortable vantage point at the foot of the mountain. After resting, the girls went with leader Hicks on the traditional Palm Canyon hike. There is no trail to follow, so the girls used a creek bed. A lizard, green scorpion and a half-expired puppy contributed to the excitement of the trip.

On Sunday the girls held the Scout's Own. After lunch, gear was packed and the Scouts with their leaders and adult friends, returned home, arriving exhausted but happy about 5 p.m.

The program announced by Mrs. Byron Netley, who presides and the functions of vice president and program chairman, will include a film contrasting the conveniences of the modern kitchen with the inconveniences of kitchens of yesterday. The film will be presented by John A. Neenan of Lemon Grove Linoleum and Custom Kitchens.

The Navy Mothers Club No. 9 will hold its monthly luncheon Friday at 12 noon at the Armed Services YMCA in San Diego. Birthdays of the month will be honored.

**COCKATEEL RIDES TURTLE,  
PULLS REPTILE'S TAIL.**

The turtle with two holes in his shell that we told about in last week's Review—the one Del Westfall picked up at Dayton and Barton streets in Monterey Heights—had a good time in Del's patio for several days, but kept trying to get out and ate all the flowers and broke down the plants before he finally left.

James Johnson picked the turtle up in the street and kept it in his yard, but the reptile ruined Mrs. Johnson's chrysanthemums in his efforts to escape—broke down the plants like a bulldozer would, and a lady who called, said it was her turtle and she would come the next day and get him, but she never came back. Mrs. Johnson didn't want the reptile and didn't want to tie him up, so when Mrs. Mangold of 2840 Highland, Spring Valley, called she took the turtle home with her.

It was understood that if the owner claimed the animal she could have it.

The Mangolds have two turtles, one weighs ten pounds and the other is a little one, brought in from the desert. Mrs. Mangold says the ten-pounder and the Westfall rescued one fight like gladiators, but their son got a light chain and hooks it into one of the holes in the turtle's shell and he is getting along all right. It is almost hibernating time for turtles, and they will soon go to sleep for the winter in a box provided.

Both big turtles are tame, eat out of Mrs. Mangold's hands. They eat watermelon, grapes, tomatoes and lettuce, won't eat grass, like to have the underside of their jaws scratched. The Mangolds have a cocktail that rides around on the big turtle's back and hangs onto his tail and gets dragged around.

That we would like to see if you are interested in turtles, call Mrs. Mangold, HO 8-3178— "Mangold's Turtle Farm," 2840 Highland, Spring Valley. Really Casa de Oro, as their home is off of Kenora Drive.

**HUNDREDTH ANNIVERSARY  
OF WORKS OF FORMER  
NEWSMAN TO BE MARKED  
AT LIBRARY**

Two very special exhibits dominate the displays at the San Diego Public Library, Eighth and F Street, all month.

The first is in the Wangenheim Room on the third floor, where are shown books and manuscripts with hand-illuminated pages. Illumination was the art of decorating pages with beautiful designs in color and gold leaf which was begun centuries ago and carried over slightly into the period of printing. It has been a neglected art for many years, but one of the examples in the display shows a modern book.

Included in the exhibit are two books loaned by Mrs. George Heyneym, daughter of Julius Wangenheim, to whose memory the room is dedicated. One is a "Book of Hours," a manuscript breviary on vellum picturing the months of the year with special saints' days and other church occasions. These books date back to the ninth century.

The other is "Chronicles of England," a 14th century manuscript giving the history of England from the Roman Emperor Diocletian through Henry V. The modern hand-illuminated and hand-lettered book is "The Hubayat of Omar Khayyam," decorated by Edward Taylor Jewett and was loaned for the display of Mrs. Dorothy Taylor. There are only two quatrains on each page and only the facing pages have the same design. This book is supposed to have been in the private collection of Rudolph Valentino and perhaps was made for him.

Each morning the pages in all these books will be turned so that new illuminations can be seen by those who visit the library daily.

The other special exhibit is in the main lobby on the first floor and observes the 100th anniversary of the appearance of George Horatio Derby's "Phoenixian."

Derby was a lieutenant in the Army Engineers and was sent to San Diego in 1850 to study the San Diego river and how to best make use of it. While here, he took over, very briefly, the editorship of the San Diego Herald, the city's first newspaper, and did much writing for it. His "John Phoenix" papers, which first appeared in 1855, and "Squibb" writings became nationally famous.

Materials in the cases came from the library's own Derby collection in the California room, the San Diego Historical Society museum, the Masonic Lodge (which Derby helped found here), Union Title and Trust Company, Hen F. Dixon, instructor in San Diego history for evening high school classes, and Mrs. Alan Gray of La Mesa, great-granddaughter of Derby. They include pictures of people and places of San Diego during Derby's time, gallery proofs of some of his writings, issues of the Herald, and many other "Derbiana" objects.

**SAN DIEGO  
SONG WRITERS  
INCORPORATE**

Musi-Lyr Songwriters, an organization formed about two years ago to give the young writer a chance to put his foot inside the publisher's door, has been incorporated under the laws of California. This word was received last week.

The organization, which is non-profit, is registered with the Better Business Bureau of Los Angeles and with the L.A. county clerk. Its headquarters are in Hollywood, with a branch club here in San Diego.

Musi-Lyr boasts 105 members, many in other states and several in Canada. They have placed 16 songs with legitimate publishers. Three songs are on records and playing in juke boxes. The three songs are "What is This Melody?" "Little TV Cowboy" and "Lookin' On," which has just been released by Fabor records.

Those who spend their time helping others to get started get no remuneration whatsoever. Even the contact men get gasoline money only.

Here is how the organization works: The composer member sends in his song to Musi-Lyr, a record and a lead sheet. His name is not put on the music only a number.

At the meeting the record is played before the members, who are unaware of the composer's name. The song is voted on and remarks written. If the song gets over 50 per cent Yes votes, it is turned over to the contact man, and he takes it to the legitimate publishers (BMI and ASCAP) for their rejection or acceptance.

Should the publisher or recorder accept the number (royalty basis) then the Musi-Lyr organization will receive 10 per cent of the royalties for club expenses, such as office expenses, clubroom rent, etc.

The San Diego branch of Musi-Lyr meets once a month, usually the second Saturday night.

**How to Treat Grove  
Sickly Lawns, Plants  
With Yellowed Leaves**

By R. L. CHACON  
Horticulturist and Lecturer

When lawns look sickly and half starved in Lemon Grove, or plant leaves turn an aemic yellow, one immediately suspects inadequate watering or feeding. Frequently, however, the situation is not that simple. All too often, there is more than one villain in the picture.

Inability of water to penetrate the soil may be a factor. For water must carry plant nutrients down into the root zone of the growing grass and plants. In hard-to-penetrate clay, packed or root-matted soils, most of the nutrients may never reach the roots, so both time and fertilizer are wasted. For what is the good of applying fertilizers to trees, shrubs and lawns, if a high percentage of the active nutrients run off the surface beyond the reach of the plant? When soil penetration is in itself a problem, it takes more than fertilizing to relieve starvation.

Similarly, the "primary" plant foods in fertilizer, nitrogen, phosphorous and potassium, have no effect on plant chlorosis (yellowing of foliage) caused by a deficiency of such minor elements as iron, zinc and other "trace" minerals.

In many of our western soils, these essential trace elements may be present, but so tightly locked chemically by other elements that they are not available.

The national suicide rate is declining, probably because most people are so busy these days they don't have time to kill themselves.

roots. It must change soil chemistry, to unlock essential trace elements, and supply trace elements apt to be lacking. It also must provide the primary plant nutrients, preferably supplying extra nitrogen for fast "greening up." It should help to reduce the pH of highly alkaline soil and combat the effect of alkaline irrigation water. And it should, of course, be easy to apply, as with sprinkling can or various hose attachments. Scientific research now has produced such a "one package" treatment, called "Terr-O-Vite." You will be seeing this outstanding contribution to scientific gardening, featured at nurseries and garden dealers.

to the plants. To correct the condition, we must actually change the chemistry of the soil and unlock them. Often we must supply missing trace elements, and in plant available form.

Another factor may be soil acidity. Most plants prefer a slightly acid soil. Yet, here in Lemon Grove, both soil and water tend to be alkaline! This alkalinity takes a terrific toll. Fully effective treatment of sickly lawns, or plants with yellowed leaves, thus requires more than watering or fertilizing, essential as both are. To be successful, the treatment should be a powerful soil penetrant, so that both water and plant nutrients actually reach the

plants.

**Irrigation District  
Directors Not  
Interested in Cloud  
Seeding Program**

The Lemon Grove Water Works, after hearing Manager Shelton's comment on "Preliminary Study for New Basis for a Cloud Seeding Contract" decided that they were "not interested," but thought Manager Shelton's attendance at a meeting to be held in the near future would serve to keep him informed, if he cared to attend. Shelton said he had no special desire to attend the meeting—he likes to stay home with his family as much as any man—so Helix Irrigation District will not participate in the investigation of rain-making possibilities in this area.

The district has contributed at least twice to the expense, so far without result. Harry Griffin thought "pay according to benefit" would be proper, if such benefit were derived and could be proven. The case of Hatfield vs. San Diego was referred to Old timers, who will remember 1915 and Hatfield's contract with San Diego, wherein he was to get \$10,000 if he produced rain, and the rain came in torrents and dams were washed out and much flood damage resulted, but Hatfield didn't get his promised \$10,000. The city claimed he was responsible for the millions of dollars damage by flood waters. Opinion has been divided as to the justice of Hatfield's claim, despite the legal wrappings advanced for non-payment.

Rain has come after severe droughts in various parts of the country where the clouds were seeded, and it looks for a while as though nature's shortage could be remedied by man, but again legal difficulties stopped operations, so we in San Diego still wait till the wind gets in the south and start praying.

President Levy didn't go along all the way with the other directors in the "cloud seeding" discussion.

Too early to tell, but it looks like another dry winter.

**HELIX GROUP TO PLAY  
AT L. A. GAME**

Helix High School Concert and Marching Bands have accepted a bid from University of Southern California to play at their football game with Notre Dame November 26. They will play musical instruments—not football.

Helix High School will be the only school from this area represented.

The band, under the direction of Daniel Lewis and Larry Christensen, will play in the stands, and with other bands at half-time.

The band will leave at 4:30 Saturday morning to meet the schedule for a rehearsal of all bands at 9:30 a.m.

The band will be guests of USC for lunch.

churches Sunday. (Psalms 103:1).

The need to glorify God in our body as well as in our soul and spirit is accentuated by Jesus when he healed the man with the withered hand. Luke's Gospel (6:9, 10) relates that he commanded the man to "Rise up, and stand forth in the midst. And he arose and stood forth. . . . And looking round about upon them all, he said unto the man, Stretch forth thy hand. And he did so, and his hand was restored whole as the other."

## BILL DEAN GETS TWO DEER IN UTAH

Bill Dean, popular tinsorial artist, returned last week from his second hunting trip this season. This second time Bill brought home two members of the animal family Cervidae, a buck and a doe. Utah licenses hunters to kill one buck and one doe per season, cost of licenses \$45 for one district, but if applications for licenses are made early, \$3 more gets another deer in another district.

Bill took his wife along on this second trip, so she could do the cookin' and see the deer running around. Mrs. Dean accompanied her hubby on some of his hunts, but Bill says it was pretty rough country and high up.

It snowed once while they were in the mountains, but not enough to drive the deer down from the heights, so Bill had to work for his trophies.

Braver, Utah was the objective point of Dean's pilgrimage. It was pretty cold at night, water freez-

ture—D. H.

ing to one quarter inch thick in buckets.

Bill's first trip was to Idaho with five other hunters, and he didn't have any luck, so when he came home and learned that Utah's deer season was still open he sent in \$45 and got his licenses. The Idaho license cost him \$15, and allowed one each of deer, elk and bear.

The Dean family will have venison for Thanksgiving dinner—D. H.

## POSTAL WORKER GETS CASH FOR IDEA

Lawrence J. Armbrust of 9237 Olive Dr., Spring Valley, a clerk in the main San Diego post office, was awarded a post office department check for \$12.50 for a suggestion he made to improve postal service. Armbrust devised a way to re-use obsolete mail pouch labels. It was his second such award. Armbrust and two co-workers had their pictures in the Tribune last week. The other two boys got certificates. All wore beaming smiles, in the pic-

## Mexico City Visited By Area Folk

The families of V. J. Dorman, Lemon Grove attorney, and Erling Karlsgodt, La Mesa doctor, are living high on the peso.

The families left Sunday for a rest in Mexico City. They plan to return about Thanksgiving.

The Dormans live at 6781 Hi-

biscuit Drive.

## ANOTHER GIRL COMES TO LEMON GROVE TO LIVE

Mr. and Mrs. Rudolf Bonilla of 3667 Olive street, Lemon Grove, announced the arrival at La Mesa Community Hospital on November 6 of a baby daughter. The young lady weighed 7 pounds 5 ounces. Twenty years hence she will probably refuse to tell how much she weighs, and will be watching her calories. This Lemon Grove climate sure raises some swell lookin' gals—D. H.

Success lies in finding what you can do best, and then stick-

ing to it.

Sport on one of the national forests which contain 81,000 miles of fishing streams and 2 1/4 million acres of natural and artificial lakes. These public forests also furnish food and shelter for nearly one-third of all the big-game animals in the United States and for many, many thousands of human beings—and others, if need be—across the street.

The driver must see to the orderly conduct on the bus, and pupils who misbehave may lose their riding privilege.

When a school bus stops where there is no traffic signal or flagman, the driver must first see if it is safe, then wait until the pupils cross the street. He must escort elementary school children—and others, if need be—across the street.

The driver must make a full stop at all railroad crossings. He cannot drive on until he has fully opened and closed the bus doors to see and hear that the tracks are clear. A driver cannot leave his bus with the engine running or the brakes off.

These are just a few state laws that safeguard our children. Local school districts may also set up more rules just as long as they do not conflict with state laws.

works closely with the state fish and game departments to provide better fishing and hunting for the many people who love these outdoor sports. As America's population increases and working hours become shorter there will be ever greater demand for hunting and fishing on the national forests.

With the exception of a few game preserves, all 181,000,000 acres of national forests are open to hunting and fishing under the fish and game laws of the states in which they are located. Last year, over 10,000,000 visits were made by fishermen and hunters from every state in the Union to enjoy their favorite sports in these forests.

## Throwin' the Bull Business Light in Township Justice Court

By BOB TURNBULL  
 (This week's "Throwin' the Bull" is dedicated to the varsity football squad of Helix High School (especially to the Lemon Grove and Spring Valley gridiron) who will challenge Chula Vista High School this Saturday night, November 19, at Helix High School in a tilt that will decide if Helix is to win their first league crown or if C. V. will win their fourth straight championship. Win or lose, the backers of Helix are with you fellows to the very end. Good luck.)

It's a Joke, Son! . . . Linebacker: "I just threw a block that saved our game!" Tackle: "Have a seat!" Linebacker: "No, thanks. I don't smoke."

Football . . . Saturday, November 19, Chula Vista vs. Helix at Helix with the kickoff at 8 p.m. Game to decide the championship of the Metro League . . . Same day, date and time San Diego Junior College plays host to rugged Bakersfield College in Balboa Stadium . . . Likewise San Diego State College battles the Leatherneck squad from MCRD in Aztec Bowl . . . and Heppe's Grumman, with only one victory all season, plays surprisingly tough independent St. Augustine High School on Friday, November 18 in Aztec Bowl.

Boys 'n' Girls . . . Striving to keep Helix original in every department, the cheer and song leaders have originated some real sharp songs, chants and yell for the pep area to scream (or sing as the case may be) to help our team continue their winning ways. Following are some examples:

Centers, ends, tackles, guards, get together, hit 'em hard—centers, ends, tackles, guards, get together, hit 'em hard. Good Helix, fight, fight, fight (cheer).

Chula Vista, who are they? Little pink elephants, stuffed with hay. You wash 'em out, you ring 'em out, you hang 'em on the line. We can beat the Spartans any old time (cheer).

One, two, three, four. Three, two, one, four. Who for? What for. Who you gonna yell for? Helix. Helix, fight, fight, fight (cheer).

Hooray for Helix, hooray for Helix, someone in the crowd is yelling. Hooray for Helix. One, two, three, four, who are you gonna yell for? Helix, that's us (combination champion).

Highland lasses and highland lasses, we join our voices in a victory melody. Hear our singing, our happiness ringing, we're here to help our team to win again today (song).

(Cheer used in assemblies). Two bits, four bits, six bits, a half. All those for Chula Vista sit down and laugh.

To Helix . . . If you fellows want this game, you can win it. Sure Chula Vista is big, tough and fast, with a winning tradition. But we're Highlanders of Helix and what we want we can get if we react fast, use good

**LIFE IN LEMON GROVE**  
**\$150,000 Worth of**  
**Trailers in One**  
**Trailer Villa**

Want to see \$150,000 worth of house trailers in one group? You may, and right in Lemon Grove, a scant two blocks north of Broadway, at the corner of Costa Bella and North Avenue. Costa Bella is a continuation of Main Street, which is the street on the west side of the S. D. & Arizona tracks. The street on the east side of the R. R. tracks is Imperial Avenue.

Now that you have the Costa Bella Trailer Villa located, go take a look, or even go in and meet Mr. and Mrs. H. G. Thompson, owners and operators. Mr. and Mrs. Thompson are co-owners with Mrs. Thompson's brother and his wife, but the brother is over in Arabia working for an oil company, so he lets Mr. Thompson do his share of the caretaking.

The Trailer Villa covers two acres of land which has a slight slope to the south and west, paved roadways, places for 48 trailers, with slabs of concrete placed so that the trailer's door opens onto a "porch" with a canvas roof.

Some of the spaces have grass borders, others have flowers.

This reporter chatted with one tenant, a retired doctor from New York City, who said he had visited trailer "villas" from Miami, Florida, where winters are not pleasant—too hot—to El Cajon, La Mesa and Lemon Grove, and found Lemon Grove the nicest place to spend the year 'round, so he and his wife decided to make Lemon Grove their home. "Nice and cool in summer, good stores at hand and nice neighbors."

Trailer spaces rent for from \$25 to \$30 per month, with water. Electricity is paid for by the tenants, who also furnish their own cooking gas. A "gas wagon" makes daily visits to the villa.

Children are not welcomed, there being only two in the camp, and they were tenants when the Thompsons took over two years ago. Several of the tenants are elderly folks, and children make considerable noise. Tenants with grandchildren like to have their young folks visit them, but not permanently.

Mr. Thompson is installing a horseshoe pitching space and a shuffleboard court for the entertainment of his guests, and a room close by that can be used as a reading room in inclement weather.

Six lovely date palms, at least 25 feet high, were planted on the corner some years ago and lend a tropical air to the "playground."

Tenants at Costa Bella Villas come from all parts of the country and all walks of life. Two sailors live there while on shore duty, a couple of airplane employees, neighbor with retired bankers, doctors and others who find that life in a trailer is care-free and pleasant, easy on the lady of the house, and the mister

Word was received last week that Merida Holley, formerly of Spring Valley, had passed away in Kansas City, Missouri. He died November 3 after a long illness. He had been a resident in Spring Valley for about nine months, and moved to Kansas City in March.

Besides his widow, Mr. Holley is survived by a son, Leon Holley of Spring Drive, Spring Valley, and one daughter in Kansas City.

**HELIX TYPING CLASSES**

Typing classes are offered practically every evening in the three high schools, Helix, Grossmont and El Cajon Valley. This program is popular as it serves many purposes. Some people come to learn the touch system, some students work toward speed improvement, and others are interested in advanced technique. Many students prepare for civil service examinations that require standards in typing.

Students come and go and anyone is welcome to join the classes at any time. Time and place information can be had by picking up an adult education schedule in give away boxes at the post offices or phone HO 8-4155 for further information.

Have you ever noticed that the good things in life are most often inexpensive things?

**MORE SINGERS**

This class has started rehearsing at the El Cajon Valley High School, Music Building on Monday night, under the direction of Harold Lutz.

Sponsored by the adult education program this is the second year that this special group has organized and they will give a public production the first Sunday in December. There is a need for more voices and the group is open to all adults who like to sing.

Practices are every Monday night until production 7 to 9 p.m.
